

**AMENDMENT TO THE CLAIMS**

The listing of claims will replace all prior versions and listings in the application.

**Listing of Claims:**

1. (Currently Amended) A system for enabling a hand-held, mobile data acquisition device, said system comprising:

a first set of software application applications, defined by a first User Role, for use with the mobile data acquisition device, the first set of software application applications being located on a remote computer,

the remote computer transferring the first set of software application applications from the remote computer to the mobile data acquisition device,

the remote computer installing and ~~activating~~ the enabling the first set of software application applications that are for use by the mobile data acquisition device, the software application being

~~determined by a user and~~ the first set of applications  
replacing a factory default software application.

2. (Cancelled).

3. (Currently Amended) The system as set forth  
in claim [[2]] 1 wherein the remote computer disables  
the first set of applications and enables a second set  
of applications for the mobile data acquisition device,  
the second set of applications being defined by a  
second User Role.

4. (Original) The system as set forth in claim  
1 wherein the mobile data acquisition device includes a  
User Role selection module, an application list module,  
and an application selection module.

5. (Original) The system as set forth in claim 4 wherein the User Role selection module displays a list of User Roles for the user.

6. (Original) The system as set forth in claim 4 wherein the application list module maintains a list of available software applications for the mobile data acquisition device.

7. (Original) The system as set forth in claim 4 wherein the application selection module maintains a list of enabled software applications for the mobile data acquisition devices.

8. (Original) The system as set forth in claim 1 wherein the mobile data acquisition device disables a software application no longer needed by the mobile data acquisition device.

9. (Original) The system as set forth in claim 1 wherein the remote computer maintains an application installation log for determining software applications enabled at a given time.

10. (Original) The system as set forth in claim 1 wherein the remote computer requests an application activation file from the mobile data acquisition device.

11-20. Cancelled.

21. (Previously Presented) A system for enabling a hand-held, mobile data acquisition device, said system comprising:

a software application for use with the mobile data acquisition device, the software application being located on a remote computer,

the remote computer transferring the software application from the remote computer to the mobile data acquisition device, the mobile data acquisition device comprising a User Role selection module, an application list module, and an application selection module,

the remote computer installing and activating the software application for use by the mobile data acquisition device, the software application being determined by a user and replacing a factory default software application.

22. (Previously Presented) The system as set forth in claim 21 wherein the User Role selection module displays a list of User Roles for the user.

23. (Previously Presented) The system as set forth in claim 21 wherein the application list module maintains a list of available software applications for the mobile data acquisition device.

24. (Previously Presented)      The system as set forth in claim 21 wherein the application selection module maintains a list of enabled software applications for the mobile data acquisition devices.
